

Our people make it work™

Technology Workforce Solutions

Our people make it work is more than just our slogan; it's our promise.

CCCi helps clients employ flexible staffing strategies that enable them to seamlessly adjust workforce levels in response to workload demands. We provide thoroughly vetted IT professionals, many with hard to find IT skill sets and industry certifications:

- **Contract**
Providing IT Professionals for short or long-term engagements
- **Contract-to-Hire**
IT Professionals are initially provided on a contract basis prior to making a direct hire decision to ensure a proper technical and cultural fit
- **Direct Hire**
Full-time openings can be quickly filled with highly skilled and qualified IT professionals
- **On Site Services**
Providing on site account management to assist our clients in on boarding, off boarding, managing and retaining larger numbers of consultants
- **Co-managed Services**
Teams of resources with additional account oversight to help deliver time sensitive and complex initiatives

With time tested processes and methods, along with our commitment to ease of business, we meet the technology workforce needs of our clients no matter the complexity, location or duration of the need.

Full Range of Qualified IT Consultants

Our ethical approach and dedication to consultant satisfaction has allowed CCCi to develop lasting relationships with hundreds of top-tier IT professionals. As a result, we're able to quickly respond to requirements spanning all technology skill sets and levels of expertise:

- CCCi is a thriving company under the same management and focused solely on IT since being founded in 1978.
- We've delivered over ten million hours of IT expertise and support to more than 375 clients.
- Our dedicated team, with consultants in more than 20 states, operates from our headquarters in Atlanta, GA and three additional regional offices in Birmingham, AL, Charlotte, NC, and Dallas, TX.
- Our client roster is broad and diverse and includes leading companies such as Southern Company, Allscripts, Cox Enterprises, NCR, Equifax, Hewlett Packard, BNSF Railway, as well as many mid-market companies and government entities.
- We provide a full spectrum of skilled, highly qualified technology professionals, many with sought after certifications from industry leaders.
- CCCi is a values based company and central to our values is the belief that everyone at CCCi is responsible for ensuring that everything we do has a positive impact on our clients, consultants, community and industry
- We deliver services comparable to those of high-priced consultancies at much more reasonable rates, enabling clients to achieve a greater return on their IT investments.
- We are a WBENC certified Woman-Owned Enterprise.
- What CCCi clients can expect:
Top technology talent
Fair/reasonable rate structure
Flexibility & ease of business

Why CCCi

- **Uncompromised Integrity:** Our core values guide us in everything we do, from how we operate our business to how we develop long-term relationships with employees, clients and consultants.
- **Straightforward Approach:** We are committed to being open, honest and direct in all dealings.
- **Innovative:** We eagerly seek innovation and best practices, developing knowledge that benefits our organization and helps our clients create the type of IT organization their business needs.
- **Informative Style:** We take time to share information regarding industry trends, insights, market rates and competitive landscape in an effort to help clients make informed decisions.
- **Ideal Size:** We are large enough to handle significant, mission-critical engagements, yet small enough to provide the personalized service our clients deserve.
- **Value:** Our services compare favorably to high-priced consultancies at much more reasonable rates, enabling a greater return on our client's IT investments.
- **WBE Supplier:** We are a certified woman-owned business by the WBENC.
- **Flexible and Easy to Work With:** We hold ourselves to high standards and strive to service our clients and consultants with accountability, flexibility and responsiveness.

Testimonials

"A trusted and valued partner for more than 30 years, CCCi has been there for us every step of the way as our needs have changed and grown. Their team has the insights and proven methods that provide the business impact we have come to depend on. CCCi's ability to provide high-impact solutions for our business is evident in the long-term relationship we share." -Chief Information Officer, Large utility in the South East

"CCCi is top of the line. They consistently demonstrate that they understand our needs, recruit people from the industry with a high reputation, give us a high level of attention and cultivate exceptional relationships with both their clients and consultants. CCCi is also on the leading edge of innovation. It's really hard to think of anything CCCi could possibly do better." -Resource Manager, Technology services provider to the financial industry

"Quite often, I am literally amazed at how well the CCCi team, through due diligence, is able to provide candidates whose credentials match perfectly with the highly specialized and technical skills required and requested in the requisitions posted." -ITS Vendor Manager, Large Texas Utility
